EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth S. Roberts on June 20, 2005.

The application has been amended as follows:

Claim 2, "wherein the tines of the clip translate towards a planar configuration to substantially close the opening" has been changed to --and a plurality of the tines and the clip translating into a substantially planar configuration--;

Cancel claim 6.

The following is an examiner's statement of reasons for allowance: The amendment to the claim is made to overcome the Green et al. reference. As illustrated in figure 3, the clip has two pair of tines 25, each pair translating toward a planar configuration. However, the clip and tines of the clip do *not* translate into mutually planar configuration.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
